STOPR027

Section School Emergency Contact Information		Page 1 of 1
		Date March 2009
Statement	On occasion, STOPR may need to contact school administration or designate after regular hours. Examples may be for assistance with lost children, behaviour problems on board or for school bus accidents. In emergency situations, it will be imperative that STOPR staff are able to establish direct contact with a school administrator. Schools are asked to complete the contact information form (TFL012), revise it as required and return to STOPR.
